ITINERARY

1 Arrive in Livingstone

Arrive at Livingstone International Airport, transfer to your accommodation and overnight. The transfer time is approximately 40 minutes.

Livingstone is a historic colonial city, a tourism centre for the Victoria Falls lying north of the Zambezi River, and a border town with road and rail connections to Zimbabwe on the other side of the Falls. The *Victoria Falls*, described by the Kololo tribe living in the area in the 1800's as 'Mosi-oa-Tunya' - 'the Smoke that Thunders' and in more modern terms as 'the greatest known curtain of falling water', are a spectacular sight of awe-inspiring beauty and grandeur on the Zambezi River, bordering Zambia and Zimbabwe. A path along the edge of the forest rewards visitors prepared to brave the tremendous spray with an unparalleled series of views of the Falls. One special vantage point is across the Knife edge bridge, where visitors can have the finest view of the Eastern Cataract and the Main Falls as well as the Boiling Pot where the river turns and heads down the Batoka Gorge.

See one of the Seven Natural Wonders of the World with a trip to Victoria Falls on the Zambian side, and accompanied by your guide, enjoy a canoe safari. Take a relaxed paddle through the water and witness elephants trekking from one side to the other and a new vantage point. Encapsulating the essence of Africa, a cruise down Zambia's glorious Zambezi River at sunset offers wonderful African wildlife sightings in an incredibly romantic setting. Explore the Mosi-oa-Tunya National Park, the only wildlife park in the area that provides refuge to the endangered white rhinos, which are closely protected by anti-poaching units. Visit the Livingstone Museum, a place to learn about Zambia's culture and natural heritage. For the philanthropic at heart, a visit to the Nakatindi village, located six kilometres from Livingstone, gives an insight into the various projects aimed at improving education, conservation, health and enterprise in the village.

Depart by shared light aircraft flight to the Lower Zambezi airstrip (via Lusaka), transfer to the camp and overnight. The flying time is approximately one hour and 20 minutes.

The Lower Zambezi National Park lies across the river from Mana Pools Reserve in Zimbabwe, making the entire area on both sides of the river a massive wildlife sanctuary. The rivers edge is overhung with a thick riverine fringe, mostly diasporus, ficus and other riverine species. Further inland is a floodplain fringed with mopane forest and interspersed with winterthorn trees *Acacia Albida*. The hills that form the backdrop to the park are covered in broadleaf woodland. The Lower Zambezi National Park covers an area of 4,092 square kilometres, but most of the game is concentrated along the valley floor. There is an escarpment along the northern end which acts as a physical barrier to most of the parks animal species. Enormous herds of elephant, some up to 100 strong, are often seen at the rivers edge.

AKORN DESTINATION MANAGEMENT

4 & 5 Lower Zambezi National Park

Spend your day enjoying the activities on offer.

Game drives are the most effective way to view big game. Usually departing in the early morning, drives can last anywhere from two to four hours depending on what's seen and the requirements of the guests. Once the sun has set, night drives commence. Zambia is one of the few countries that permit night drives, perhaps the most interesting of all safari activities. Pioneered in Zambia, bush walks are essentially a "micro-safari". An armed ranger and qualified and experienced guide will guide you through the wilderness on foot, interpreting spoor, identifying the various flora and fauna, and highlighting conservation issues. River cruises make for relaxed game viewing, photography and bird watching. Although the Zambezi offers many activities, perhaps it is best known for canoeing. No where else is there such a combination of breath-taking scenery, varied wildlife and such interesting channels to paddle through.
