Unusual Accommodation

We love a unique take on our environment so we thought we would show off just how creative we can be in Africa. Whether inspiration has been sought from Mother Nature or taking advantage of a different perspective this campaign has some serious inspiration for you to start an exciting conversation with your clients about Africa.

Africa from Above

Perspective changes everything. So this month, we are focusing on some of the best places to soar sky high! Witnessing Africa from much higher up gives us the ability to truly appreciate just how vast, how diverse and how stunning this wonderful continent is. All of these wonderful excursions enhance your client's trip offering them a unique viewpoint, a wonderful add-on to an already awesome itinerary. It's time to escape the ordinary.

All Things Photography

Pictures have captivated humans since the beginning of our time on this planet from cave paintings to the high-resolution images and videos we can capture now. For many it is the essence or purpose of a safari, who will believe your stories and experiences without being able to see it for themselves? East and Southern Africa offers so much visual stimulus for all levels of photographer. Our wildlife, birdlife, cultures, colours and landscapes are second to none and being able to capture that magic is important. Inside this marketing piece we explore some of our favourite photographic hides, vehicles, editing labs and curated experiences to enhance any journey.

Day Experiences

Our selection of day experiences encompass a wide variety of full and half day excursions allowing guests a tailor made experience to suit their individual interests. Our Insider Access delves into the culture & history of the country offering rare and authentic experiences in East & Southern Africa.
